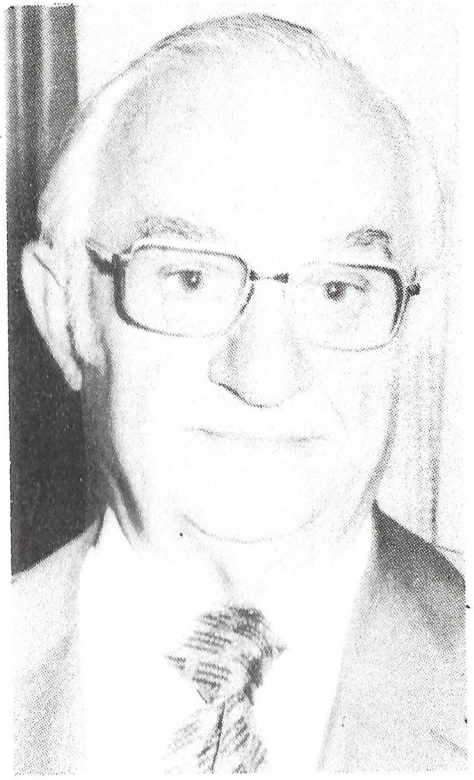
Message from the President of The Australian Soccer Federation



The National Soccer League is an important and integral part of Australian soccer and a great deal of time, effort, skill and finance is being put into the promotion of this League by the participating clubs.

Notwithstanding this expenditure and effort, the League has not yet attained in full all its objects.

The Australian Soccer Federation, in co-operation with The National League Committee will, during the 1983 season, analyse the first six years of the League with a view to develop plans to improve the competition.

Plans are being drawn up right now to stabilise the financial situation of the League over the next four years. However, this is not enough and the League requires a more professional commercial approach to the promotion.

Forward planning for the next four years will be the main objective for the 1983 season and this may entail structural changes in the competition.

The League clubs must keep in mind that spectators attend their games to be entertained. The type of football displayed by players determines your support and the support of the code as a whole and efforts from all are required to ensure that all clubs play attractive football.

I take this opportunity to wish the players, officials and supporters of every club in the League a successful and entertaining 1983 season.

MESSAGE FROM CHAIRMAN OF THE NATIONAL SOCCER LEAGUE COUNCIL OF CLUBS

As we enter the seventh season of the national competition we are facing the same problems that confront the whole nation: rising costs without corresponding rises in our income. The recent rise in air fares was against the national call for a freeze and will put further pressure on our resources.

Negotiations with West Nally should resolve some of the difficulties but the overriding problem is the size of our country and the cost of domestic travel. Between 1977 and today the cost of air travel has risen by 150% and it is still rising.

We have by now established the principle that a competition involving the best teams is essential to the progress of the code, but this doesn't mean that the present format of the competition is the best one or the most logical.

In the course of this year we have to reassess the whole concept of professional soccer both in terms of the national competition and overall administration.

The escalation of players' wages and transfer fees has to cease. The restrictions placed on young players in the present "open market" situation have to be lifted by a carefully drawn plan allowing players to rise from the lower leagues to the National League and the older players to go down to the State Leagues without exorbitant transfer fees.

The biggest single factor affecting the number of spectators at any game is the number of games played on any given Sunday afternoon. It is often asked where are the 15,000 and 20,000 patrons who attended soccer games in the 60s.

Part of the answer must lie in the fact that at that time there was one single game on Sunday with all the rest played on Saturday. In recent years there has been a proliferation of soccer clubs with the result that in the Metropolitan area of Melbourne or Sydney there are literally hundreds of games on any Sunday, each one attracting from a few spectators to some hundreds and in some cases up to 2,000.

I believe the same must apply to other cities. It is time that some rationalization was applied by the various State Federations in the establishment of new soccer clubs.

It is also imperative that junior players are given an opportunity to watch senior games to improve their own skill but also as to become spectators at the end of their careers by ensuring that junior games are played on Saturday or Sunday morning.

The 1983 season will be a difficult one for all of us but I am certain that the dedication of those involved in the game, both off and on the field, will ensure that it is a successful one.

SAM PAPASAVAS

WEST NALLY IN AUSTRALIA

West Nally, the leading world sports marketing company, whose ten years of experience includes such major events as the World Cup and the Davis Cup, have now entered into a $3 million agreement with both the Austtralian Soccer Federation and the National Soccer League.

This agreement will cover a four year period — 1983 to 1986, and during that time West Nally, will use its world wide resources to repackage and remarket Australian Soccer as a united sport.

Significant steps have already been achieved with the signing of a long term television agreement with Channel 7 Network, providing for high quality professional television coverage of all major international matches played in Australia over the next four years. An equally important part of the agreement includes the appointment of Mr. Peter Sheean as the new Commercial Director for the Australian Soccer Federation and National Soccer League of Australia. Mr. Sheean will work in close harmony with the Australian soccer Federation Executive Director, Mr. Brian Emery and National soccer League General Manager, Mr. Stefan Kamasz, to plan, implement and promote exciting international fixtures with such top nations as England, Italy and Uruguay as well as annual international tournaments involving countries from every continent.

Mr Sheean will also work alongside the N.S.L Management Committee throughout 1983, planning a restructuring programme for the League from 1984 onwards, which will create highly promotable soccer at a level totally suited to television.

In this way, West Nally, see the face of Australian Soccer changing to become more positive, more confident and above all more professional.

E. John Clark
General Manager

If you play soccer without A.S.F. Players Protection Scheme cover– you're crazy.

Could your club afford to pay you if you are totally or partially disabled whilst playing?

Cover is available for Junior Clubs through to P.S.L. So make sure your club has you covered–just in case.
